## A Young Businesswoman

Rut is only fifteen years old, but she has a business.

We asked her some questions about it.

### What is your business?

I have a party\* business. I make birthday parties for little boys and girls. I  
5 take the children to the park for a picnic, or I make a pizza for them. We play  
games and sing songs, and I tell stories. Everyone has fun and I make some  
money\*.

### Wow! That's a great\* idea\*! How did you think of it?

I love children, and I am a very good babysitter. One day, my neighbor\*  
10 asked me to help her with a birthday party she was making for her son\*. That  
gave me the idea for my business.

### Is it hard?

Some things are easy and some things are hard. I like the parties, but  
preparing\* for them can take a long time. That is hard when I need to do  
15 homework or study for a test, but I am very happy with my business.
